INFO ► K-FLEX® AL CLAD SYSTEM

K-FLEX® AL CLAD SYSTEM TUBES

Tubes have a coating system with a high performance adhesive overlap coupled to K-FLEX® ST insulation. Suitable for both indoor and outdoor use, the AL CLAD foil has an aesthetic finish and forms an impermeable barrier protecting the insulation from UV radiation and adverse weather.

The complete system is easily installed with a significant reduction in labour time.

Matching pre-formed trims complete the range.

K-FLEX® AL CLAD SYSTEM SHEETS

Sheets are composed of the AL CLAD coating system coupled with K-FLEX® ST insulation. Available in standard or self-seal, they are designed for use with conduits, ventilation ducts and large pipes. Their flexibility and ease of processing make this material especially suitable for awkward configurations and trims.
